

DANIEL KLAUER, DDS

TMD AND SLEEP APNEA EXPERT. PROVEN DENTAL PROFESSIONAL. PASSIONATE SPEAKER.

ACHIEVE YOUR VICTORY

SOLUTIONS FOR TMD
AND SLEEP APNEA

BY DANIEL KLAUER, DDS

With a passion for educating patients and giving them the tools to live healthier lives independent of medications and “band-aid” fixes, Dr. Klauer recently authored, *Achieve Your Victory: Solutions for TMD and Sleep Apnea* to reach a wider audience.

His goal for readers is the same as it is for his patients: improve the lives of those suffering from TMD/TMJ and sleep apnea symptoms. Dr. Klauer outlines everything you need to know about what you’re experiencing, why you’re experiencing it, and how to overcome it.

IT’S TIME TO BE VICTORIOUS!

Help Your Patients Get Comfortable Again &
Conquer TMD/TMJ & Sleep Apnea For Good

With a family tree full of medical professionals, Dr. Daniel Klauer, DDS, was destined to care for patients. His ultimate decision to focus on patients with craniofacial pain, TMD, and sleep disorders was largely due to the overwhelming need within his community and throughout the country.

Like most dentists, Dr. Klauer began his career as a drill and fill dentist. While he enjoyed the work, he felt there was a missing piece of the puzzle. Through growing interest and continued education, Dr. Klauer started concentrating on treating the root cause of pain versus the symptoms. As a result, his practice evolved to focus on total wellness—an approach that takes a whole-body perspective on health rather than compartmentalizing medical issues within individual body systems.

Today, his priority is restoring the health and comfort of patients who are suffering due to pain in the mouth, jaw, and face. Often problems in these parts of the body come from within those structures or may be brought on by pain or misalignment in other parts of the body. Problems in the head, neck, or mouth negatively affect breathing and sleep, which then leads to additional health problems.

Dr. Klauer looks not only within his own area of practice, but also at the interrelationships between his specialty and other areas of medicine for the best solution. It’s this form of care that has treated many patients suffering from craniofacial pain, TMD, headaches, poor sleep, or problems that previously couldn’t be solved. He’s often referred to as “the doctor that never gives up on his patients.”

With a desire to share his proven methodology with others, Dr. Klauer authored his recent book, *Achieve Your Victory: Solutions for TMD and Sleep Apnea*. He has a passion for helping patients take back their health and loves to share his message and expertise to create a roadmap back to comfort.
